

INVESTOR DAY

22 MARCH 2018

DISCLAIMER

These forward-looking statements reflect the Company's current intentions, plans, expectations, assumptions and beliefs about future events. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from other companies and venues for the sale/distribution of goods and services, shifts in customer demands, customers and partners, changes in operating expenses, including employee wages, benefits and training, and governmental and public policy changes, as well as natural disasters which may negatively impact business activities of the ST Engineering Group. You are cautioned not to place undue reliance on these forward-looking statements, which are based on current view of management on future events. The Company does not undertake to update these forward-looking statements to reflect events or circumstances which arise after publication.

MARINE

NG SING CHAN

PRESIDENT, ST MARINE

Strengthen Core Businesses

| Marine

Enhance product offerings for the future

Strengthen US business to position for upturn

Grow environmental engineering business

By 2022, we expect Marine sector revenue to recover to 2013 to 2014 levels, subject to the business cycle

Competency in Naval Segment Provides Resilience Against Downturn

Our business is cyclical in nature ...

US Navy New Shipbuilding Procurement Plan

Source: Annual Plan for Construction of Navy Vessels for FY 2019

Execute Projects Well and Target Addressable Markets

Execute current projects well

Littoral Mission Vessel

Heavy Marine Fire Vessel

Grow core and adjacent ship repair segments

Offshore Support Vessel Repair

Research Vessel Refurbishments

Container Roll-on / Roll-off (ConRo)

LNG Bunkering Articulated Tug & Barge (ATB)

Offshore Rig Upgrades

Superyacht Restorations

Building track record in new markets (LNG Vessels)

- America's first offshore LNG ATB for Q-LNG
- Launched the world's first LNG-powered ConRo built for Crowley Maritime

Leverage Technology to Improve Operational Efficiency

Yard of the future

Smart Engineering

Integrate **Product Lifecycle Management** with Design and Engineering

Smart Manufacturing

Automate manufacturing process via **robots** and **video analytics**

Smart Workplace

Expand usage of **sensors** and **wearables** to create a safer workplace

Smart Warehouse

Use technology to **track** and **monitor movement** of goods

Smart Asset Mgmt

Incorporate technology to **track utilisation**, **condition monitoring** and **preventive maintenance**

Enhance Product Offerings for the Future

Innovate to meet industry and market needs

LNG Dual-Fuel ROPAX

Service Operation Vessel

Pursue new ship conversion markets

Platform Supply Vessel to Service Operation Vessel

Liquefied Petroleum Gas Carrier to Floating Gas Power Unit

Analytics to boost ship performance

In-house **Advanced SMS²* (NERVA)** equipped with:

- Intelligent Power Management System
- Sense Making System
- Decision Support System

* Ship Management System & Sense Making System (SMS²)

Develop a Suite of Unmanned Solutions

- Unmanned Solutions
 - Defence
 - Para-military
 - Commercial
- Other niche markets
 - Unmanned ship-to-shore connectors
 - Unmanned maritime platforms

Improve Margins through Cost Optimisation

Improve productivity

- Continue to invest in technology and automation
- Captured ~10% efficiency improvement year-on-year

Promote Shared Services

- Reduce overhead costs
- Drive alignment to group's policies

Increase collaboration

- Provide fast turnaround engineering solutions
- Share design expertise and leverage proven ship designs

Smart City: Grow Environmental Engineering Business

Smart Environment

Solid waste management

Water treatment

Waste water treatment

Marine Business is Strategic to the Group

Contributes to holistic suite of defence capabilities

Equipped to take on environmental infrastructure projects (target growth areas)

Invest across business-cycles
