# DATA CENTRE SOLUTIONS

Connecting your Business to
the Heartbeat of the World

EMBARK ON YOUR DIGITAL TRANSFORMATION JOURNEY

Data Centre Solutions unifies Customised Green Data Centres, Technical Services and Data Centre Hosting services to have a secure, end-to-end solution for Data Centres in businesses and government agencies.

TAP INTO THE POWER OF OUR DATA CENTRE SERVICES AND 360° EXPERTISE

Customised Design and Build of Green Data Centres

We provide innovative, highly resilient and power efficient designs, combining inter-disciplinary expertise to ensure timely execution, deployment of resources, risk management and project governance.

Key Benefits

- Innovative and sustainable design
- Efficient and environmentally friendly
- Power and cooling management

Technical Services

We offer a full spectrum of cost effective preventive maintenance and facilities management services.

Together with our partners, our technical crew conducts periodic inspections and maintenance of equipment to ensure optimum uptime performance of critical operations.

Key Benefits

- Back to back support with Original Equipment Manufacturers (OEM) and partnering vendors
- Reliability assurance & contingency readiness
- Life Cycle Management

Data Centre Hosting Services

Our facilities are designed to meet the mission critical needs of our clients.

We give you the peace of mind to focus on your core business, while we provide dedicated support to manage and operate the data centre infrastructure facilities.

Key Benefits

- Access to our integrated facilities management, preventive maintenance and security teams anytime, everyday
- Enhance cost savings, reliability and security
- Flexibility and adaptability for future technologies

WE ARE PROVEN PERFORMERS

Our solutions comply with the stringent industry standards such as Telecommunication Industry Association (TIA), Uptime Institute's Tier Ratings, BCA Green Mark and applicable statutory and regulatory requirements.

Accorded with the BCA Green Mark Platinum Award 2018, and the Frost & Sullivan Singapore Excellence Data Centre Physical Infrastructure Solutions System Integrator 2013 award, our know-how enables us to continuously deliver and exceed our client's enterprise requirements.
