Breaking ground for our new airframe MRO facility at Changi Creek, Singapore

We recently broke ground for our new airframe maintenance facility situated at Changi Creek, Singapore. When completed by end-2026, this state-of-the-art facility will have four widebody hangar bays and contribute 1.3 million man-hours annually, a significant step in capacity expansion to meet the rising needs for airframe MRO services in Asia Pacific.

ST Engineering signs LEAP-1B maintenance contract with Lion Air Group

We secured a five-year contract with Lion Air Group to support their fleet of Boeing 737 MAX aircraft with our LEAP-1B MRO solutions! This agreement makes them a launch customer for our LEAP-1B MRO services, following our inclusion in CFM's authorised LEAP MRO network in March this year.

MRO Asia Pacific Awards 2023: Double delight with two awards in two consecutive years

For the second year running, ST Engineering clinched two awards at the MRO Asia Pacific Awards! This year, we were awarded Asia MRO of the Year - Engine as a recognition of our commitment to engine MRO excellence. We also won the Sustainability Initiative of the Year award, a culmination of our efforts to deliver innovative, sustainable solutions for customers and reduce emissions at our aerospace facilities.
