## ADDER Remote Weapon Station (RWS) TWIN

The ADDER RWS TWIN is a high-performance system designed with a common base that is highly adaptable to mount multiple weapon payloads for all platforms. It is equipped with smart capabilities to meet the demands of tomorrow's battlefield.

### Features

#### PLATFORM-AGNOSTIC

Can be integrated on any tracked, wheeled vehicle or marine vessel.

ADDER TWIN on Hunter

#### ADAPTABLE CONTROLS

Configurable to vehicle-mounted Operator Console or wireless handheld Operator Control Unit.

#### COMMON FCS

Identical workflow and user interface across the ADDER family.

#### PROTECTION

Modular add-on armour solutions.

#### RELIABLE

Rigorously tested for all operational scenarios.

#### SMART DETECTION

Auto detection and target tracking that helps to detect, differentiate and track specific targets.
